

EKAMANT

EKA 3000 N

EKA 3000 N HAS EXCELLENT CUTTING PROPERTIES.

The aluminium oxide grit together with the pliable paper backing achieve flexibility and an efficient lacquer sanding operation with fine scratch pattern.

EKA 3000 N is further treated with a stearate coating which effectively reduces clogging problems and contributes to an improved surface finish.

The Antistatex® bonding system provides a fully antistatic effect which minimizes dust load both on the belt surface and on the sanding surface.
