

A E S M N S

A pliable sanding tool for wide belt sanding of coatings.

In the furniture industry the demand for finer and more beautiful surfaces continues, and as such, the importance of surface treatment and lacquer sanding is growing. Ekamant is acknowledged as developing high quality sanding materials to answer these demands.

- AESMNS has been designed to meet the demands of most lacquer sanding applications. Silicon carbide grains are fixed to a pliable paper backing with a specially designed bond system which achieves flexibility and sanding efficiency in this product.
- Ekamant - the inventor of antistatic abrasive materials, continues to develop this technology giving improved antistatic qualities for AESMNS. Our clear leadership in this field results in even better sanding economy and working environment.

Backing material	E-paper
Type of grains	Silicon carbide
Coating	Open
Binder	Resin over glue
Antistatic treatment	Yes
Stearated	No

Items	standard
Narrow belts	No
Wide belts	No
Rolls	Yes
Discs	No
Sheets	Yes
